Forecast for Tuesday 13 Jul 2021

Weather: A dull start with some light rain and drizzle through the morning, the weather will improve by midday to bring long lived sunny spells throughout the afternoon. There is a low risk of seeing a light showers in the afternoon. Overnight some patchy cloud will cover some hill sides and fog may form in valleys.

Chance of cloud free mountain/hill tops above 800m: 40% first thing, becoming 100% my midday and 90% after dusk.

Visibility: Generally poor first thing particularly in any areas of rain and drizzle with patchy cloud bases at around 400m. Becoming excellent by midday as all cloud lifts above the summits, though temporarily deteriorating in isolated showers. Becoming poor into the evening as mist forms in valleys and patches of cloud at 300m cover some hill tops and sides.
